

## FUND TO SAVE THE LITTLE ONES NOW PAST \$1000 MARK

Phoenix Gives \$382 More To Save Children Of Europe; Indications Are Second Thousand Is Forthcoming

Without personal solicitation, the fund being subscribed in Phoenix for the relief of the starving children of Europe has passed the \$1000 mark and is moving with a momentum of spirit that promises the realization of a substantial part of a second \$1000.

The amount added to the fund yesterday was \$382.81, making a total of \$1002.81. It was announced last night by P. C. Spillbury, who has been named by Herbert Hoover as his representative in Phoenix and vicinity for the American Relief association, formed to receive subscriptions of money with which to feed and clothe the starving children of Europe during this winter.

Of this amount subscribed in Phoenix yesterday, \$342.81 was sent or brought in person to The Republic, while the remainder was given to members of the Rotary club committee named for the purpose. No one will be solicited personally, the only reminder being the coupon appearing in The Republic each morning.

"It is the most desperate situation in the world today," declares Herbert Hoover in appealing to the people of this country to respond to the call to save these little ones of Europe.

Herbert Hoover, the foremost national figure among the ruling men of the world today, has laid aside business in order to make a great national appeal that the lives of these children may be saved. In his telegram to his representative in Phoenix, Mr. Hoover says as follows:

"I wish to appeal to you for assistance in meeting the enormous problem of finding resources with which to carry some 2,500,000 European children through the winter. I realize it is difficult to get the attention of the public at present because of the large demands of the past few years and the existing business depression in many sections, coupled with the apathy toward European problems. Nevertheless, this child-feeding problem continues and is of paramount importance. The world is so filled with despair and the war already has exacted such a toll of young lives that there is heavy responsibility on all of us who care for civilization and progress to exert every effort to check the further sacrifice in life. The American people, through the American Relief administration, have been fighting for these children since the armistice, having fed 6,000,000 in 1919, and some 3,000,000 in 1920. The operations are carried on by business men on business principles, both at home and abroad. Assistance to this work is one of most direct and efficient contributions which American business men can make to the stability of central and eastern Europe. Our funds will be exhausted by Jan. 1. Abandonment of work would be a blow to the stability of Europe and would also bring infinite misery to millions of innocent children. We dare not fail to carry on."

Little Girl Gives

Numerous incidents connected with the subscription to the fund in Phoenix show how thoroughly to heart the people here are taking this appeal.

One little girl, far too short for her head to appear over the counter, called at The Republic business office yesterday and left \$10. She said she wished it to be used to feed and clothe some little girl in Europe this winter.

The little miss who left this subscription is Dorothy Dean Dolph, 5 years old.

A man, accompanied by two little girls, came to The Republic yesterday. He explained that he had read the appeal in The Republic for the

## Cost \$12,912,302 To Operate State One Fiscal Year

The operating expenses for the State of Arizona for the year ending June 30, 1920, amounted to \$12,912,302.38, according to the annual report of L. S. Ross, state treasurer, filed with the governor. While the cost of maintenance mounted in the millions, the total receipts exceeded the disbursements, the amount being \$14,234,061.01. Of this amount \$5,595,390.58 was derived from taxes while the balance of the revenue of the state came from the different departments of state.

The balance in the treasury July 1, 1919, was \$1,329,260.92, while the balance in June of this year was \$2,651,015.55.

Mr. Ross made no recommendations for changes in the law governing the office which he holds. His report consists entirely of receipts and disbursements covering many closely typed pages and accounting for all monies handled by his department.

## SCHOOL KIDDIES TO COMPETE FOR TRUCK GARDENING PRIZES

One hundred dollars will be distributed to school children of Phoenix during the present term as prizes for truck gardening. It was announced at the chamber of commerce yesterday.

Lysander Cassidy, formerly an attorney of this city and now an official of the farm loan bureau of Berkeley, Calif., is donor of the prize money. The entire amount, he specifies in his letter, must be used to encourage gardening among the school children of this city.

The fund has been turned over to the Phoenix schools and will be distributed among nearly 40 boys of the city, according to plans outlined by Superintendent John E. Loper.

In acknowledging receipt of the fund, Mr. Loper wrote Mr. Cassidy as follows:

"The chamber of commerce has turned over to me your check for \$100 to be used in encouraging gardening in the schools. Allow me to express our appreciation for this generous gift and I want to assure you that we will make an effort to use it in such a way as to bring forth the best results.

"At the present time, we have 10 classes in gardening and we will divide this up into ten parts, and each part into at least three or possibly four prizes for the best kept garden. In this way, your \$100 will find its way into the hands of at least 30 and possibly 40 of the boys of Phoenix; and I am sure that those who win these prizes will always have a very kindly feeling toward you for your very generous contribution."

starving children of Europe and desired to be of assistance. He had not made up his mind how much he would subscribe, he said. But he looked down at the two little girls with him and added:

"It would be a terrible thing if my little girls should starve. I will give \$20 to the fund, enough to feed and clothe two children through this winter," he added.

Following are the subscriptions to the fund in Phoenix made yesterday:

New Names on List

Woman's Club of Arizona ..... 110.00

E. A. Marshall ..... 10.00

E. F. Wyatt ..... 10.00

Franklin D. Lane ..... 20.00

## FIRST JURY CASE OF SESSION BEGINS IN FEDERAL COURT

With the choosing of the trial jury and the consequent calling of the first case, that of John Radich against the Ray Consolidated Copper company, the United States district court, now in session here with Judge William H. Sawtelle presiding, got fairly under way yesterday. The grand jury, which was chosen Monday, is already deep in its work, many cases which had awaited its action coming up before it yesterday, and scores of witnesses summoned by it filling the ante-rooms and corridors of the federal building.

The personnel of the trial jury selected yesterday includes R. D. Jacobs, F. A. Derclerq, J. A. Brandenberg, J. S. Garvin, M. E. Simser, John Wesley, E. E. Ellsworth, W. Swartz, Gordon B. Cleveland, Leo Schrader, James H. Graham and S. B. Mallicoat.

Following the choosing, impaneling and charging of the jury, the case of John Radich against the Ray Consolidated Copper company, in which the former is suing for \$20,000 in damages alleged to be due because of injuries sustained by him in one of the company's mines at Ray when he was caught by falling rock, was called. Radich was on the stand during the greater part of the afternoon, detailing the incidents of the accident in which he is supposed to have been injured, the

chief injury, it was alleged, being a broken back.

In contradiction of the plaintiff's claim that he had been permanently disabled, the defense introduced a number of large photographs purporting to show Radich at work on a ranch near Phoenix, plowing, harrowing, feeding hogs and caring for cattle. The plaintiff, however, declared that the pictures taken of the injured back, was then put on the stand. He supported the contents of Radich concerning the broken back, and also declared, in a stiff cross-examination, that it would be possible for a man to have a broken back and still perform his ordinary duties, even if they were strenuous.

Dr. William O. Sweek, who had examined Radich at different times and who had had radiographs or x-ray pictures taken of the injured back, was placed upon the stand and testified that he had taken the radiograph of Radich's back at the direction of Dr. Sweek.

The case was adjourned at 5 o'clock until 9:30 o'clock this morning. The hours of court will be from 9:30 o'clock in the morning until noon, and from 1:30 o'clock in the afternoon until 5 o'clock, unless press of business makes longer sessions necessary.

CUP TASTED OF CARBOLIC ACID DALLAS, Tex.—When L. Scott, an expressman, tasted carboric acid in the office drinking cup, he took a look around the office and found B. B. Beckham, 32, suffering from carboric acid. Beckham, married and out of a job, had taken acid from the cup. He is likely to recover.

## FOUND GUILTY ON SHOOTING CHARGE

Louis Pivavoff was found guilty by a jury in the Superior court Monday on a charge of assault with a deadly weapon and will be sentenced this morning at 9:30 o'clock by Judge Stanford. The trial began on Friday in the Superior court, but after Pivavoff on the stand refused to answer questions put to him by the court, he was cited for contempt of court and ordered to be held in the county jail until yesterday morning. He answered all questions yesterday.

The charge against Pivavoff arose from several shots he was alleged to have fired at the residence of Erwin George Bryan, janitor, southwest of Glendale, on the night of Sunday, March 28. Three of the shots, according to the testimony, passed through the walls of the house and narrowly missed the young child of Mr. Bryant, passing about a foot over its bed. The shots were fired from an automobile as it drove past the house. On the next day Pivavoff, who is a son of the priest of the Russian colony at Glendale, was arrested.

Pivavoff said that he alone did the shooting for amusement.

THIS TOWN'S JAIL FAR TOO LARGE CHANUTE, Kas.—Chanute has more housing accommodations than it needs for its few law-breakers, and less than it needs for its automobiles. So the city commissioners have voted to turn part of the city jail into a garage.

## Three Rules for Saving

Everybody can have a substantial savings account by observing these simple rules:

Spend less than you earn.

Do not be afraid to say "I can't afford it."

Systematically deposit to your savings account each week or month. Open your account at this friendly bank today, adhere to these rules and watch your account grow.
